

OBITUARY.

Mrs. Admiral Foote.

Caroline Augusta Foote, widow of the late Admiral Foote, died at the residence of her father, Augustus H. Foote, Esq., in New Haven, Conn., on Wednesday morning, August 20, at the age of 75 years. Her husband, who was a distinguished naval officer, died in 1845. The death of the late Admiral Foote has been widely followed by that of his widow.

Dr. John S. Bartlett.

This gentleman, of whose death we made a brief notice on Tuesday, was one of the oldest and most respected members of the press in this city. He was born in Dorchester, England, pursued his medical studies in London under the direction of Sir Astley Cooper, and on the recommendation of that distinguished man was appointed an assistant surgeon in the British army. While on duty in the West Indies in this capacity he was captured by the enemy and taken prisoner to Boston, where he remained until his discharge in 1813. During the period of his captivity he devoted his leisure to the study of the English language, and was enabled to converse fluently with the natives. He was a man of great energy and a strong bias for literary pursuits, and he got tired of the drudgery of his practice and removed to New York, where in 1822 he established the *Albion*, a journal which, though representing English interests, obtained through its literary merits an extensive circulation. Under his management it was characterized by ability, enterprise and elevation of tone. When steam communication was established between Great Britain and this country, he founded at Liverpool the *European*, now known as the *Standard*.

After twenty-five years spent in various editorial duties, he was called to the editorial chair of the *Albion*, which he held until 1857, when he was elected to the position of editor of the *Standard*. He was a man of great energy and a strong bias for literary pursuits, and he got tired of the drudgery of his practice and removed to New York, where in 1822 he established the *Albion*, a journal which, though representing English interests, obtained through its literary merits an extensive circulation. The North Carolina Peace Movement.

From the Richmond Dispatch, August 17. The peace movement in North Carolina is gaining momentum. The North Carolina Peace Association, organized in 1862, has been active in promoting peace and reconciliation. The association has held several meetings and has issued numerous resolutions. The movement is gaining support from all classes of the population, and it is hoped that it will lead to a speedy and permanent peace.

Arrivals and Departures.

Port Royal, S. C. - Arrived: The ship *Albatross*, from New York, arrived at Port Royal on August 22. The ship was loaded with various goods and passengers. The passengers included several families and a number of single persons. The ship was expected to depart for New York on August 24.

Financial and Commercial.

Money was a little more active to-day. Stocks were unsettled, and there was no higher, six per cent being taken lenders received, with the usual differences at 5 and 7. There was no scarcity of money, and all wants were readily satisfied. Business paper is without change, and currency certificates of indebtedness sold at 97 1/2 - an advance of 1/2 on yesterday.

Democratic Platform.

In the Iowa Democratic Convention there was a despatch to the effect that the platform was adopted. The platform was a long and detailed one, covering a wide range of issues. It was adopted by a large majority, and it was hoped that it would lead to a successful election.

Gold and Silver.

Gold was 124 1/2 before the board, and sold up to 124 3/4 at the board. In the course of the day it declined to 124 1/2. The opinion on the street is partly that gold has been oversold, on expectations about the taking of Charleston, and partly that it is worth all that it is selling for - that it is not above its true price. Exchange was unsettled, and sold from 136 1/2 to 137.

Stocks.

It has been an exciting day in stocks: the decline continued and was very sharp at the first. New York Central sold down to 133, Erie to 116 1/2, Erie preferred to 106, Harlem to 161, Reading to 119, Illinois Central to 131, Michigan Central to 120, Southern Ohio to 102 1/2, Pittsburgh to 102, Fort Wayne to 91. The entire list was violently shaken, and bears had a good opportunity to take in their stocks sold short during the past two days. It appears that many of them did so, and, although lower prices still were in some instances reached after the closing of the call, the market soon began to rally, and the recovery this afternoon, both at the one o'clock call and at the regular board, was as rapid as has been seen in Wall street.

Second Board.

At the second board New York Central recovered to 135 1/2, Erie to 118 1/2, preferred to 109, Harlem to 163 1/2, Reading to 121 1/2, Michigan Central to 122 1/2, Southern Ohio to 106, and after a short rally to 105 1/2, Illinois Central returned to 135, Pittsburgh to 105, and then fell to 104; Rock Island sold up to 91, and rose to 95 1/2, seller 90, in the morning, opened at 90, and rose to 95 1/2. On the street, and at the four P. M. call, the list advanced generally to the extent of 1/2 or 1 per cent; but at the hour of writing they were again shown signs of giving way. It remains a matter of contest and uncertainty what is the real character of the market; for even if either side be correct they have not the means of convincing their opponents now. Experienced men vary in their views as much as the novices of speculation; and, while one class points to the rapid rebound of the afternoon as clear proof of the strength and elasticity of the market, the bears assert that the prices attained are a maximum, and that not the rebound, but the decline, is the general and normal tendency of the market, varied only by reactions, which are due to the covering of short sales, and purchases for an immediate profit. Still money is cheap for use, and the bulls have made profits enough and have large enough margins on their loans to endure a good deal of loss before being convinced of what as yet they do not believe. Brokers have for some time past gradually accented their friends to increasing their margins, a measure demanded alike by the increased margins given to lenders and by the fluctuations of the market, so that a shaking like that of to-day does not take them quite unawares. The news from England continues favorable for American securities, latest dates by letter giving Erie at 75 1/2, Illinois Central at 16 1/2 discount, and New York Central 65. Private telegraphic advices report higher figures subsequently for Erie - 76 3/4, 76 1/2. It was almost impossible to get a full list of closing prices to-day; but the following incomplete one is appended:

Coroner's Inquests.

FATAL RAILROAD ACCIDENT. - Coroner Ranney held an inquest yesterday at 326 Cherry street upon the body of John Larkin, a child about six years old, who died from the effects of injuries received at the hands of a young man named William Cameron, on the 19th inst. It appeared that Cameron, who is a young man of about 18 years of age, was employed as a porter on the New York Central Railroad. He was seen by the coroner's jury, and he was asked to explain the circumstances of the accident. He stated that he was carrying a box of goods on the railroad, and that the child had run in front of the train. He was asked if he had seen the child before, and he replied that he had not. He was then asked if he had any other witnesses, and he replied that he had not. The coroner's jury then retired to consider their verdict, and they returned a verdict of manslaughter against Cameron.

Coroner's Inquests.

FATAL RAILROAD ACCIDENT. - Coroner Ranney held an inquest yesterday at 326 Cherry street upon the body of John Larkin, a child about six years old, who died from the effects of injuries received at the hands of a young man named William Cameron, on the 19th inst. It appeared that Cameron, who is a young man of about 18 years of age, was employed as a porter on the New York Central Railroad. He was then asked if he had any other witnesses, and he replied that he had not. The coroner's jury then retired to consider their verdict, and they returned a verdict of manslaughter against Cameron.

For the week ending August 21 we are as follows:

	1862.	1863.	1864.
Freight	\$20,714.00	30,734.75	25,548.45
Passengers	7,028.00	10,134.75	8,548.45
Mails	1,250.00	1,300.00	60.00
Total	\$28,992.00	42,169.50	34,156.90

Being an increase of forty-six per cent over the same week of last year.

The Chicago and Alton Railroad earned for the week ending August 21, in 1863, \$31,805.06; in 1862, \$39,339.01 - an increase this year of 23.13 per cent; and from January 1 to the end of last week, in 1863, \$777,647.79; in 1862, \$1,079,307.40 - an increase of \$302,659.70, or about forty-three per cent.

The day's business at the Sub-Treasury was as follows:

	1862.	1863.	1864.
Receipts	\$2,203,370.00	2,203,370.00	2,203,370.00
Disbursements	2,203,370.00	2,203,370.00	2,203,370.00
Balance	2,203,370.00	2,203,370.00	2,203,370.00

Mr. Matthew T. Brennan, the City Comptroller, advertised to-day for proposals for \$1,000,000 of riot damages indemnity bonds of the county of New York. These bonds will bear 6 per cent interest; they will be issued September 1, 1863, and will be redeemable August 1, 1864.

The statements of the banks of the three principal cities of the Union for the last week compared with the previous one, and the corresponding time of 1862, as follows:

	1862.	1863.	1864.
New York	\$1,171,710.00	1,171,710.00	1,171,710.00
Philadelphia	1,171,710.00	1,171,710.00	1,171,710.00
Boston	1,171,710.00	1,171,710.00	1,171,710.00

The statement of the Boston banks for the last week compared with the previous week, and for the corresponding week of 1862, as follows:
